		transfer are also of our interest.		(2) Attitude development analysis
				It is essential for the public infrastructure, to be accepted
				by concerned people with affirmative attitude. In order to
				discuss how such attitude is developed and what kind of
				factors affect, various cases are discussed from various
				viewpoints such as the social networks. The mission of
				the intern will be analysis and numerical simulation of
				social networks, or the scenario analysis of successful
				cases.
